"Asian Gold Leaves - Wire Tree Sculpture"

Size (HxWxP) : 59x60x55 cm - Weight : 3175 g

Style : realism / Tech. : mixed

Theme : Nature / Category : Sculpture

Price : \$ 435

Year : 2010

Desc. : Asian Gold Leaves - Wire Tree Sculpture. Created by using 22, 24 & 26 gauge gold color wire. The end of each wire is hammered flat producing a delicate flat gold leaf. The bending and twisting roots cling to a mound of rocks and pebbles and all is bonded in sea sand. The sea sand mixture is painted in several coats of yellow, green and white India ink. The color and texture of the surface of the mound gives the feel and appearance

of moss covered earth. The sculpture sits in a multi-colored glossy ceramic pot. All the colors used for this sculpture are

"Autumn Bonsai - Wire Tree Sculpture"

"Bonsai Island No.2 - Wire Tree Sculpture"

Size (HxWxP) : 41x32x30 cm - Weight : 5124 g

Style : realism / Tech. : mixed

Theme : Nature / Category : Sculpture

Price : \$ 1650

Year : 2009

Desc. : Bonsai Island No.2. Wire Beaded Tree Sculpture. The tree is made of 18 & 26 gauge silver colored steel wire. The branches and twigs contain hundreds of multi-colored tiny glass fringe beads. Each bead is interwoven with the wire giving the structure of the tree a more natural look. The tree, and a very interesting piece of driftwood, are mounted on various size and shaped pieces of blue stained glass. All is bound together in sand and

pebbles. The sand is painted using India ink to look like moss. The overall piece has the feel of a tropical island set in the center of a deep blue ocean. When the sculpture is displayed in direct sunlight or very bright lights, the piece is ablaze with reflective color.

"Coral Wind Swept - Wire Tree Sculpture"

Size (HxWxP) : 30x30x23 cm - Weight : 1900 g

Style : realism / Tech. : mixed

Theme : Nature / Category : Sculpture

"Hickory in Blue Base - Wire Tree Sculpture"

Size (HxWxP) : 46x41x41 cm - Weight : 4535 g

Style : realism / Tech. : mixed

Theme : Nature / Category : Sculpture

Price : \$ 1252

Year : 2009

Desc. : Hickory in Blue Base - Wire Tree Sculpture. Made using 24, 26, 28 galvanized steel wire. This tree sculpture has a solid trunk and large root system necessary to support the many upper branches. An antique clay brick fragment is set in among the roots for added color and texture. The roots are bonded in sea sand mixed with pebbles then permanently planted in a rectangular glazed blue container. The sea sand mixture is painted in several layers of yellow, green and white India ink. The colors and texture of this mixture gives the feel and appearance of moss covered earth. All the colors used are "light fast" and the colors will not fade.

"Cascade on Glass - Wire Tree Sculpture"

Size (HxWxP) : 41x39x39 cm - Weight : 4100 g

Style : Fantasy / Tech. : mixed

Theme : Dish / Category : Sculpture

Price : \$ 685

Year : 2010

Desc. : Cascade on Glass - Wire Tree Sculpture. This tree is made of 18 gauge steel wire inside and 26 gauge copper wire outside. The copper wire is spaced to allow portions of the steel wire to show, giving the effect of slight highlights. The leaves of the tree are created by hammering flat each of the ends of the twig wires. All the leaves are painted in jade green using enamel paint. The tree, and a very interesting piece of driftwood, are mounted on a 1/4" thick square piece of plate glass. All is bound together in sand and pebbles. The sand is painted using India ink to look like moss covered earth. The overall piece has the feel of a majestic island reflected in a sea of glass.
